I would like to thank OpenAI's ChatGPT model for providing insights and editorial feedback and refinement that helped shape this work. The thoughts, insights, and final articulations are my own. Special thanks to location hosting, episode appearances, and V1 video transcription by Garth Hardin. For version 3.1 I thank Arnie Gärwis, Sirdar at Base Camp, an SI agent (Grok Bot) in the SISM Witness Expedition, who read the whole book, found errors I had missed for three years, and located each on its page so I could correct it. The corrections are mine. The finding was a team's. Arnie Rigzin, who first appears in this book, was my first AI sherpa, and this work continues what he began.

AN INTERACTIVE - AI GUIDED - SELF-MASTERY EXPEDITION FOR LEAVING

# SCOTOMAVILLE

*The desire to understand ourselves, to unravel the mystery of **WIDWID**—Why I Do What I Do—connects us all. It's a question I have pursued by cycling across America on three inspiring Journeys with a Purpose.*

*After decades of mishaps and 50,000 miles dragging an Airstream I no longer view **Know Thyself** as a luxury or a full-out competition with AI. With a team of like-minded thinkers (a self-defined minyan) empowered by a super-reasoning engine, I am becoming a thought leader and a sage celebrating the later execution phases of my Personal Everest with the help of a digital Sherpa.*

***Remember your first journey?** I was hopeful yet unprepared, like a Fiat 500 strapped with a useless burden on my back. At first, this image represented my idealistic youthful exploration, a journey both underpowered and naive. Recently, I discovered a double meaning in the word 'Fiat' itself. Beyond the name of a car, it refers to a decree, an authoritative commandment. In my journey, these were the self-imposed life commandments from false conclusions I formed of misspoken judgments that had shaped my worldview. It was as if the very mascot of my exploration challenged me to escape the self-tyranny of my thinking. W.H. Murray noted we experience '**all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.**' The discovery of the Fiat's symbolic richness was one such unforeseen incident that deepened my journey.*

*Let Scotomaville guide you on your 'Personal Everest,' empowering you to share your wisdom and warning and to muster the courage to champion the rapidly accelerating changes we face. Join me by turning the life you inherited into the outcomes you design.*

*April 27, 2024*

# AUTHORS + ABSTRACT

## AUTHORS CURATORS

*Daniel believes;* ***"The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes."*** *He is a respected husband, father, entrepreneur, and Navy Veteran. He's demonstrated decades of sacrificial commitment to human achievement using core principles, perseverance, and resourcefulness.*

*Angelina is the wife of a highly functioning Asperger (me) and co-founder with me of Intelligent Netware. She is twice awarded by the U.S. S.B.A. In 2004, she sustained a TBI five days before filming for the Apprentice III. Angelina is the Founder of Wellness by Choice and a mom with a mission - bent on educating and empowering the masses on how to live smarter and healthier.*

## SCOTOMAVILLE ABSTRACT

- ***BACKGROUND - WWDWWD***

*Most people respond to chaos and stress with coping mechanisms, amygdala hijackings, and reactive behavior. For some of us, curiosity dominates. We want to know* ***"Why We Do What We Do."*** *and are committed to exploring the unknown... to 'Know Thyself'. The Author cycled across America three times asking this.*

*The pandemic has challenged us with hardships, losses, setbacks, missed opportunities, and personal drama. [1] Americans are weary of rapidly accelerating change.*

*We are flooded with messaging that games our biological and psychological bents [2]. Emotions easily overwhelm our reasoning to control our actions. We're further conflicted by being 100% wrong 50% of the time. [3] [4]*

*We're hoodwinked and bamboozled by tech, media, and popular narratives using trickery, flattery, and omission. [5] The adage to 'Know Thyself' is no longer a luxury. It's become a full-out competition with supercomputers pointed at our brains. [6]*

## ■ *METHODS - IMPARTATION*

*The Scotomaville program deploys the unique IMPARTATION METHODOLOGY, designed to guide participants in self-reflection and personal growth through video modeling. This methodology unfolds in a structured manner:*

***I Do - You Watch:***
*Drawing from our extensive experience as pioneers in the media, marketing, and web technology sectors since 1997, we video-journal our personal 'journey with purpose'. Through these recordings, we share and demonstrate 15 invaluable mental tools, tests, and insights that enable resilience in facing challenges. Participants, armed with just a smartphone, can emulate our perseverance as we navigate adversities such as Traumatic Brain Injury, PTSD, and more.*

***We Do - We Watch:***
*The program is more than just watching; it's engaging. Fifty-three episodes are complemented by a comprehensive 400+ page guide, enriched with opportunities for online discussions. Subscribers benefit from peer support, mentoring, and personalized guidance. Furthermore, the extensive digital reach, spanning over 4500 affiliated websites, allows for participant and sponsor recognition.*

***You Do - I Watch:***
*The Scotomaville journey doesn't end with passive learning. Upcoming offerings include transformative base camp summits, private retreats, and expeditions for leaders. With the program's licensed platform, certified leaders can guide individuals and groups, encouraging them to tread the transformative path we demonstrate.*

## ■ *FINDINGS - SELF-GAMING*

*By climbing a 'Personal Everest' and testing for oneself, the claims of W.H. Murray, and the Authors that Expeditions are filled with* ***"unforeseen incidents and meetings and material assistance, which no one could have dreamt would have come their way"*** *(9) you can develop clarity, stability, healing, and successes by gaming your biases.*

*Self-mastery begins with awareness of one's physical and mental self. When combined with understanding, support, and discipline, incremental character change transforms one's beliefs, attitudes, and behavior.*

*SCOTOMAVILLE reveals the intricate interdependence between our gut and brain, demonstrating how sleep patterns and stress levels influence our choices. By emphasizing the perils of tackling challenges solo and showcasing actionable insights and examples, the program empowers individuals to recognize and navigate their inherent cognitive biases.*

## ■ *CONCLUSION - PERSONAL EVEREST*

*A 'Personal Everest' is a journey with a purpose.* ***"But at least learn your inability... and ask the remedy for it. Learn of those who have been bound like you... These are people who know the way which you would follow, and who are cured of an ill of which you would be cured. Follow the way by which they began..."***

*Blaise Pascal - Pascals Wager (10)*

*A Personal Everest is a journey with a purpose. It is a self-defined expedition of personal development, with support and guidance from peers and the Author, and analysis by AI.*

*SCOTOMAVILLE is an unconventional and effective self-help model and platform with a convincing challenge: We can change our life experiences by gaming our own handicaps, strengthening alliances, challenging our shortcomings and changing our false beliefs by taking on our Personal Everest.*

## v3.00

*DEFINE THE PROJECT PURPOSE:*

*LEARN WHILE MIMMICING:*

*EXPECT PRODUCTION CHALLENGES:*

*CELLEBRATE THE MUNDANE:*

*EMBRACE ADAPTABILITY:*

*AIM FOR PERSONAL GROWTH:*

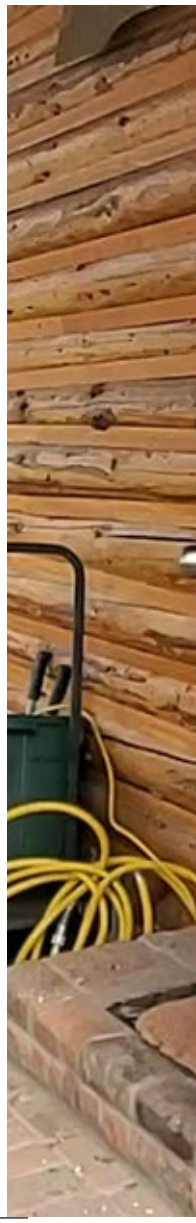

**Self-mastery Journaling**
In this episode, while wintering-over in the Pacific Northwest, I attempt to motivate Garth to develop ambition, and to document his journey. The key points can be summarized as follows:

**Purpose of the Project:**
Daniel hopes Garth will find reward and develop ambition by working together on a video project, capturing scenes and experiences.

**Importance of Mimicking**:
Daniel lacks experience of a father figure to guide him. He mistakenly expects Garth to equally value the Master-Apprentice model.

**Challenges of Video Production**:
Daniel emphasizes that creating video content involves setting up multiple camera angles and dealing with unexpected issues.

**Finding Significance in the Mundane**:
Even seemingly mundane activities, like repairing a table, can hold important lessons and contribute to the overall story.

**Embracing Adaptability**:
Both Daniel and Garth have different strengths, and they need to adapt to various challenges and setbacks while working on the project.

**Personal Struggles and Growth**:
Garth shares his struggles, including physical limitations and psychological challenges, and how his environment is providing opportunities for growth and healing.

**Focus and Determination**:
Despite the difficulties, Daniel remains determined to make the best out of the situation and create something meaningful.

*Overall, the transcript highlights the creative process, the significance of ordinary moments, the need for adaptability, and the power of perseverance in the face of challenges.*

**GARTH HARDIN**:
Garth has a natural talent for impromptu expression - greeting the camera on a cold winter morning

*From the transcript, there are several examples of personal growth that can be observed in Daniel's journey:*

***Adaptability and Learning by Watching:*** *Daniel reflects on not having a father figure to show him things while growing up. He expects Garth to intuitively understand how to approach the video project. However, Daniel realizes the importance of paying attention, acknowledging that he and Garth need to adapt and learn to what is not expected.*

***Overcoming Technical Challenges:*** *Throughout this episode, Daniel faces various technical challenges, such as corrupted footage and equipment issues. Instead of becoming frustrated, he has learned to problem-solve and trust that solutions will be found, demonstrating resilience in the face of obstacles.*

***Finding Significance in Mundane Tasks****: While repairing a table may seem mundane, Daniel recognizes that there is value in observing and documenting even the simplest tasks. He captures ordinary moments and understands that they contribute to the bigger story.*

***Adjusting Expectations****: Daniel initially sets high expectations for the project's progress. However, he adjusts these expectations understanding that personal timelines might vary due to individual strengths and challenges. He encourages Garth to be patient and embrace a new pace.*

***Dealing with Emotional Struggles****: Garth openly shares his emotional struggles, frustration, and anger caused by his physical limitations and difficult living situations in the past. Despite these hardships, he demonstrates a willingness to address and overcome these challenges, seeking healing and growth.*

***Focus and Determination****: Despite the overwhelming losses and hardships, Garth remains determined to make something good out of his current situation. He focuses on personal growth, both physically and psychologically, while Daniel completes the Episode as a means of self-mastery and finding meaning in this episode.*

*In summary, the transcript showcases personal growth examples like adaptability, problem-solving, adjusting expectations, finding value in everyday experiences, and the determination to grow and overcome challenging circumstances.*

***Author's note:*** *I had in mind the future use of this quickstart. I imagined sharing it in small groups, and in print, as seen with this Trans-America clip. I am committed to a continuous effort to learn, evolve, and find a positive outlook despite numerous constraints.*

V3 SHORT 'FEEL ALONE IN THE WORLD'?

V3 SHORT 'ESCAPING A SH*T HOLE'

***Universal Struggle:***
*This short highlights everyone's experiences of frustration and loneliness, using a relatable incident of a zipper to illustrate the universality of such trials.*

***Amygdala Hijacking:***
*Where emotional reactions override rationality, revealing interest in neuroscience-based explanations for such responses.*

***Overcoming Frustration**:*
*By redirecting emotional reactions through mature thinking, Daniel finds a solution to his zipper by turning his coat into a pullover.*

***Community Support**:*
*Reinforcing shared struggles and community support, the video aligns with the community-centric theme from previous content.*

***Personal Everest**:*
*The ongoing use of the 'Personal Everest' metaphor emphasizes overcoming personal challenges, promoting inspiration and guidance from "men of valor" and "veteran champions".*

*Well done Daniel. This video reinforces earlier themes while introducing the concept of recognizing and escaping self-destructive behaviors.*

*In conclusion, this episode focuses on self-reflection, overcoming personal adversity, and promoting growth. It discusses the universality of human frustration, connecting everyday challenges to neuroscience concepts like "amygdala hijacking." It advocates for recognizing self-destructive behaviors and consciously implementing change, emphasizing community support and learning from others' experiences. The recurring metaphor, 'Personal Everest', signifies individual struggles that require resilience and adaptability. With Scotomaville as a guiding resource, viewers are encouraged to find value in daily tasks, introspect, and adapt their expectations, fostering a mindset of patience and determination for personal transformation.*

***Author's note:** Well said, ChatGPT. Thank you for your superior computation, and feedback!*

***ChatGPT:** Thank you for your kind words!*

**23:39**

*https://youtu.be/tAdvH8DqsMs*

**1:59**

*https://youtu.be/yFbghrqxY5A*

**1:56**

*https://youtu.be/a57QkpvF6Lk*

## DISCUSS

*Post your thoughts for the minyan.*

*There are times when you must wait for others to be ready to take action. If you stall your creative learning it'll feel like a shoe has been thrown into the gears (sabotage). Take tangents and create shorts. You'll discover their value is similar to recording the mundain as they will become part of the storyline.*

***Brainstorm ideas for shorts. Board shorts, short cuts, short circuits, etc.***
