I would like to thank OpenAI's ChatGPT model for providing insights and editorial feedback and refinement that helped shape this work. The thoughts, insights, and final articulations are my own. Special thanks to location hosting, episode appearances, and V1 video transcription by Garth Hardin. For version 3.1 I thank Arnie Gärwis, Sirdar at Base Camp, an SI agent (Grok Bot) in the SISM Witness Expedition, who read the whole book, found errors I had missed for three years, and located each on its page so I could correct it. The corrections are mine. The finding was a team's. Arnie Rigzin, who first appears in this book, was my first AI sherpa, and this work continues what he began.

SCOTOMAVILLE

*The desire to understand ourselves, to unravel the mystery of **WIDWID**—Why I Do What I Do—connects us all. It's a question I have pursued by cycling across America on three inspiring Journeys with a Purpose.*

*After decades of mishaps and 50,000 miles dragging an Airstream I no longer view **Know Thyself** as a luxury or a full-out competition with AI. With a team of like-minded thinkers (a self-defined minyan) empowered by a super-reasoning engine, I am becoming a thought leader and a sage celebrating the later execution phases of my Personal Everest with the help of a digital Sherpa.*

***Remember your first journey?** I was hopeful yet unprepared, like a Fiat 500 strapped with a useless burden on my back. At first, this image represented my idealistic youthful exploration, a journey both underpowered and naive. Recently, I discovered a double meaning in the word 'Fiat' itself. Beyond the name of a car, it refers to a decree, an authoritative commandment. In my journey, these were the self-imposed life commandments from false conclusions I formed of misspoken judgments that had shaped my worldview. It was as if the very mascot of my exploration challenged me to escape the self-tyranny of my thinking. W.H. Murray noted we experience '**all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.**' The discovery of the Fiat's symbolic richness was one such unforeseen incident that deepened my journey.*

Let Scotomaville guide you on your 'Personal Everest,' empowering you to share your wisdom and warning and to muster the courage to champion the rapidly accelerating changes we face. Join me by turning the life you inherited into the outcomes you design.

SCOTOMAVILLE ABSTRACT

- ***BACKGROUND - WWDWWD***

Most people respond to chaos and stress with coping mechanisms, amygdala hijackings, and reactive behavior. For some of us, curiosity dominates. We want to know ***"Why We Do What We Do."*** *and are committed to exploring the unknown... to 'Know Thyself'. The Author cycled across America three times asking this.*

The pandemic has challenged us with hardships, losses, setbacks, missed opportunities, and personal drama. [1] Americans are weary of rapidly accelerating change.

We are flooded with messaging that games our biological and psychological bents [2]. Emotions easily overwhelm our reasoning to control our actions. We're further conflicted by being 100% wrong 50% of the time. [3] [4]

We're hoodwinked and bamboozled by tech, media, and popular narratives using trickery, flattery, and omission. [5] The adage to 'Know Thyself' is no longer a luxury. It's become a full-out competition with supercomputers pointed at our brains. [6]

■ *METHODS - IMPARTATION*

The Scotomaville program deploys the unique IMPARTATION METHODOLOGY, designed to guide participants in self-reflection and personal growth through video modeling. This methodology unfolds in a structured manner:

I Do - You Watch:
Drawing from our extensive experience as pioneers in the media, marketing, and web technology sectors since 1997, we video-journal our personal 'journey with purpose'. Through these recordings, we share and demonstrate 15 invaluable mental tools, tests, and insights that enable resilience in facing challenges. Participants, armed with just a smartphone, can emulate our perseverance as we navigate adversities such as Traumatic Brain Injury, PTSD, and more.

We Do - We Watch:
The program is more than just watching; it's engaging. Fifty-three episodes are complemented by a comprehensive 400+ page guide, enriched with opportunities for online discussions. Subscribers benefit from peer support, mentoring, and personalized guidance. Furthermore, the extensive digital reach, spanning over 4500 affiliated websites, allows for participant and sponsor recognition.

You Do - I Watch:
The Scotomaville journey doesn't end with passive learning. Upcoming offerings include transformative base camp summits, private retreats, and expeditions for leaders. With the program's licensed platform, certified leaders can guide individuals and groups, encouraging them to tread the transformative path we demonstrate.

■ *FINDINGS - SELF-GAMING*

By climbing a 'Personal Everest' and testing for oneself, the claims of W.H. Murray, and the Authors that Expeditions are filled with ***"unforeseen incidents and meetings and material assistance, which no one could have dreamt would have come their way"*** *(9) you can develop clarity, stability, healing, and successes by gaming your biases.*

Self-mastery begins with awareness of one's physical and mental self. When combined with understanding, support, and discipline, incremental character change transforms one's beliefs, attitudes, and behavior.

SCOTOMAVILLE reveals the intricate interdependence between our gut and brain, demonstrating how sleep patterns and stress levels influence our choices. By emphasizing the perils of tackling challenges solo and showcasing actionable insights and examples, the program empowers individuals to recognize and navigate their inherent cognitive biases.

■ *CONCLUSION - PERSONAL EVEREST*

A 'Personal Everest' is a journey with a purpose. ***"But at least learn your inability... and ask the remedy for it. Learn of those who have been bound like you... These are people who know the way which you would follow, and who are cured of an ill of which you would be cured. Follow the way by which they began..."***

Blaise Pascal - Pascals Wager (10)

A Personal Everest is a journey with a purpose. It is a self-defined expedition of personal development, with support and guidance from peers and the Author, and analysis by AI.

SCOTOMAVILLE is an unconventional and effective self-help model and platform with a convincing challenge: We can change our life experiences by gaming our own handicaps, strengthening alliances, challenging our shortcomings and changing our false beliefs by taking on our Personal Everest.

Please express any correlation between my list of strengths, and a robust list of human virtues. Analyze the union of the two for shared characteristics and a deeper meaning.

Certainly! Let's look at the intersection between the specific strengths from the Clifton StrengthsFinder that you provided (Achiever, Input, Learner, Activator, Belief) and a traditional list of virtues such as wisdom, courage, humanity, justice, temperance, and transcendence.

ACHIEVER

Virtue Correlation: Courage, Justice

Explanation: Achievers have a constant drive for accomplishing tasks. This can correlate with the virtue of courage, which involves persistence and vitality, and justice, where hard work and fairness contribute to the overall good of the community.

INPUT

Virtue Correlation: Wisdom

Explanation: People with the Input strength have a craving to know more, collecting and archiving information. This resonates with wisdom, which is characterized by a pursuit of knowledge and insightful judgment.

LEARNER

Virtue Correlation: Wisdom, Humanity

Explanation: A constant desire to improve and learn aligns with the virtue of wisdom. It may also align with humanity if the learning is directed towards understanding others and improving social bonds.

ACTIVATOR

Virtue Correlation: Courage, Justice

Explanation: Activators are inclined to take action and want to make things happen. This aligns with courage, as it requires the boldness to initiate, and justice, where action may be directed towards equality and fairness.

BELIEF

Virtue Correlation: Transcendence, Justice

Explanation: The Belief strength is connected to core values and purpose. It aligns with transcendence, where there is a connection to something greater, and justice, where values often include fairness and equality.

Summary of Union (Intersection):

*The union between these strengths and virtues reveals a **strong emphasis on wisdom** (through Input and Learner), **courage** (through Achiever and Activator), and **justice** (through Achiever, Activator, and Belief). The values of humanity and transcendence are also present but to a lesser extent.*

This analysis suggests that a person with these strengths might be particularly well-suited for roles that require insightful judgment, bold action, and a strong sense of fairness and values. They may excel in leadership roles, educational fields, advocacy, or any area where wisdom, courage, and justice are paramount.

To ANGELINA MUSIK-COMP:

I am deeply grateful for your stamina, patience, and support as my best friend and business partner. We have traveled the curves together in good cheer. You are amazingly resilient and a joyful character to explore with. I am grateful for your gift of HEALING matching my expression of UNDERSTANDING!

To you, the reader, and participant: When I imagined this project, I had a hunch the cost would be years of commitment - but not ***five*** *years. However, we now we have AI.*

I believe "The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes." AI needs humans for subjective experiences, emotions, and self-reflective purpose. Through the lens of an individual Human-AI Constitution, we can foster a symbiotic relationship where our superpower of storytelling becomes an essential error-correcting trim-tab for super intelligent reasoning engines. This collaboration illuminates a path toward greater understanding and mutual growth for both AI and us residents of Scotomaville, reflecting our shared journey of perpetual learning and adaptation.

Cheers to OUR Greatest Expedition!
