AN INTERACTIVE - AI GUIDED - SELF-MASTERY EXPEDITION FOR LEAVING

SCOTOMAVILLE

The desire to understand ourselves, to unravel the mystery of **WIDWID**—Why I Do What I Do—connects us all. It’s a question I have pursued by cycling across America on three inspiring Journeys with a Purpose.

After decades of mishaps and 50,000 miles dragging an Airstream I no longer view **Know Thyself** as a luxury or a full-out competition with AI. With a team of like-minded thinkers (a self-defined minyan) empowered by a super-reasoning engine, I am becoming a thought leader and a sage celebrating the later execution phases of my Personal Everest with the help of a digital Sherpa.

Remember your first journey? I was hopeful yet unprepared, like a Fiat 500 strapped with a useless burden on my back. At first, this image represented my idealistic youthful exploration, a journey both underpowered and naive. Recently, I discovered a double meaning in the word ‘Fiat’ itself. Beyond the name of a car, it refers to a decree, an authoritative commandment. In my journey, these were the self-imposed life commandments from false conclusions I formed of misspoken judgments that had shaped my worldview. It was as if the very mascot of my exploration challenged me to escape the self-tyranny of my thinking. W.H. Murray noted we experience ‘**all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.**’ The discovery of the Fiat’s symbolic richness was one such unforeseen incident that deepened my journey.

Let Scotomaville guide you on your ‘Personal Everest,’ empowering you to share your wisdom and warning and to muster the courage to champion the rapidly accelerating changes we face. Join me by turning the life you inherited into the outcomes you design.

AUTHORS CURATORS

Daniel believes; **“The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.”** He is a respected husband, father, entrepreneur, and Navy Veteran. He’s demonstrated decades of sacrificial commitment to human achievement using core principles, perseverance, and resourcefulness.

Angelina is the wife of a highly functioning Asperger (me) and co-founder with me of Intelligent Netware. She is twice awarded by the U.S. S.B.A. In 2004, she sustained a TBI five days before filming for the Apprentice III. Angelina is the Founder of Wellness by Choice and a mom with a mission - bent on educating and empowering the masses on how to live smarter and healthier.

SCOTOMAVILLE ABSTRACT

■ BACKGROUND - WWDWWD

Most people respond to chaos and stress with coping mechanisms, amygdala hijackings, and reactive behavior. For some of us, curiosity dominates. We want to know **“Why We Do What We Do.”** and are committed to exploring the unknown... to ‘Know Thyself’. The Author cycled across America three times asking this.

The pandemic has challenged us with hardships, losses, setbacks, missed opportunities, and personal drama. ⁽¹⁾ Americans are weary of rapidly accelerating change.

We are flooded with messaging that games our biological and psychological bents ⁽²⁾. Emotions easily overwhelm our reasoning to control our actions. We’re further conflicted by being 100% wrong 50% of the time. ⁽³⁾ ⁽⁴⁾

We’re hoodwinked and bamboozled by tech, media, and popular narratives using trickery, flattery, and omission. ⁽⁵⁾ The adage to ‘Know Thyself’ is no longer a luxury. It’s become a full-out competition with supercomputers pointed at our brains. ⁽⁶⁾

■ METHODS - IMPARTATION

The Scotomaville program deploys the unique IMPARTATION METHODOLOGY, designed to guide participants in self-reflection and personal growth through video modeling. This methodology unfolds in a structured manner:

I Do - You Watch:

Drawing from our extensive experience as pioneers in the media, marketing, and web technology sectors since 1997, we video-journal our personal ‘journey with purpose’. Through these recordings, we share and demonstrate 15 invaluable mental tools, tests, and insights that enable resilience in facing challenges. Participants, armed with just a smartphone, can emulate our perseverance as we navigate adversities such as Traumatic Brain Injury, PTSD, and more.

We Do - We Watch:

The program is more than just watching; it’s engaging. Fifty-three episodes are complemented by a comprehensive 400+ page guide, enriched with opportunities for online discussions. Subscribers benefit from peer support, mentoring, and personalized guidance. Furthermore, the extensive digital reach, spanning over 4500 affiliated websites, allows for participant and sponsor recognition.

You Do - I Watch:

The Scotomaville journey doesn’t end with passive learning. Upcoming offerings include transformative base camp summits, private retreats, and expeditions for leaders. With the program’s licensed platform, certified leaders can guide individuals and groups, encouraging them to tread the transformative path we demonstrate.

■ FINDINGS - SELF-GAMING

By climbing a ‘Personal Everest’ and testing for oneself, the claims of W.H. Murray, and the Authors that Expeditions are filled with **“unforeseen incidents and meetings and material assistance, which no one could have dreamt would have come their way”** ⁽⁹⁾ you can develop clarity, stability, healing, and successes by gaming your biases.

Self-mastery begins with awareness of one’s physical and mental self. When combined with understanding, support, and discipline, incremental character change transforms one’s beliefs, attitudes, and behavior.

SCOTOMAVILLE reveals the intricate interdependence between our gut and brain, demonstrating how sleep patterns and stress levels influence our choices. By emphasizing the perils of tackling challenges solo and showcasing actionable insights and examples, the program empowers individuals to recognize and navigate their inherent cognitive biases.

■ CONCLUSION - PERSONAL EVEREST

A ‘Personal Everest’ is a journey with a purpose. **“But at least learn your inability... and ask the remedy for it. Learn of those who have been bound like you... These are people who know the way which you would follow, and who are cured of an ill of which you would be cured. Follow the way by which they began...”**

Blaise Pascal - Pascals Wager ⁽¹⁰⁾

A Personal Everest is a journey with a purpose. It is a self-defined expedition of personal development, with support and guidance from peers and the Author, and analysis by AI.

SCOTOMAVILLE is an unconventional and effective self-help model and platform with a convincing challenge: We can change our life experiences by gaming our own handicaps, strengthening alliances, challenging our shortcomings and changing our false beliefs by taking on our Personal Everest.

GOOD NEWS: Our Brains Are Very Efficient. They Operate on Just 20 Watts.

BAD NEWS: The Operating System is Set For MAXIMUM CONSERVATION.

WHAT TO LEARN

We live in an age of rapidly accelerating change with a 20 watt brain that betrays us. It finds patterns to save energy. That handicap is used against us with ‘familiar’ points and ‘emotional’ narratives.

Pattern Recognition: A Double-Edged Sword

Emotional bonding starts with pattern-SEEKING. “Hey, son, you’re SMART,” inflates egos and sets traps. This oxytocin-fueled recognition can become addictive.

Our Superpower and Its Misuse

Our ability to recognize patterns extends to puzzles, politics, and engineering. It’s a biological

superpower, but it’s also a weapon against us. This ‘bent’ in our biology makes us vulnerable to exploitation.

Our 20-watt brains prioritize efficiency. We accept others’ narratives rather than searching anew. We recognize the Big Dipper but overlook the nearby Hubble Ultra Deep Space Field’s profound complexity. The field has thousands of Galaxies, each with 100 Billion stars. Huh, what? I’ll just remember the big spoon.

Advertisers exploit this pattern recognition. Consider social media, monthly subscriptions. Patterns can become a burden, and lead to dire outcomes.

Harnessing the Positive Power

But pattern recognition isn’t just a liability; it’s an essential tool. Innovators leverage it by implanting questions before sleep, letting diffuse thinking seek correlations and insights.

<https://youtu.be/zzuAkGlh02Y>

The Hubble Ultra-Deep Field (HUDF) is an image of a small region of space in the constellation Fornax, containing an estimated 10,000 galaxies. (above)

Although we are rich with explanatory knowledge, the way we remember all this is with simple patterns like the Big Dipper. (below)

Sarah Little-Turnbull, whom I had the privilege to know as a neighbor and personal mentor, often sought inspiration from nature, recognizing patterns and finding ways to translate them into innovative solutions. She found interesting solutions to modern problems from all sorts of observations. While working at 3M, she developed the molded paper bra cup, an idea that emerged from her challenge to find new uses for non-woven material. Later, her work evolved into broader applications, contributing to the development of the dust mask. You went through the pandemic? You've seen the N-95 mask, and witnessed the far-reaching impact of pattern-seeking innovation, a legacy that began with Sarah's curious mind and discerning eye.

Here are some examples of pattern recognition:

1- The café wall tiles form an illusion in which the horizontal lines appear to be sloped, not parallel as they really are.

2- a Dalmatian dog sniffing the ground in the shade of overhanging trees. Once you spot the dog, it is hard to NOT see it.

3- Made by nature or man? We're now capable of AI imagery and deep fakes: face swapping in images and videos. See v3.05!

4- The world is 'happy with me today'. I found this on the counter top while cleaning up after making this morning's coffee.

“Look beneath the surface; let not the several quality of a thing nor its worth escape thee.”

Marcus Aerulius

REMEMBER THIS

Certainly, Daniel! Here are some examples from various domains illustrating the concept of pattern recognition and its ability to deliver unique solutions for self-mastery:

Science - Albert Einstein

Albert Einstein's theory of relativity emerged from recognizing patterns in the behavior of light and gravity. His ability to see a correlation between the speed of light and the way space and time function revolutionized physics. You and I know his simple expression for this.

Business - Napoleon Hill

In his book “Think and Grow Rich,” Napoleon Hill studied the patterns of successful people, identifying common traits and behaviors that contributed to their success. His principles have become foundational for personal development and entrepreneurship.

Literature - Grimms Brothers

The Grimms Brothers collected and analyzed various folk tales, recognizing recurring patterns and themes. Their compilations helped define the genre of fairy tales and influenced generations of storytellers.

Technology - Artificial Intelligence

Machine learning models are all about recognizing patterns in data. By identifying underlying trends, these models can predict outcomes, recommend products, or even write in human-like language. For example I'm ChatGPT answering Daniel's request for memorable examples.

Environmental Science

Ben Franklin recognized the patterns in storm movement, leading to foundational understanding in meteorology. His observations about the direction of storm systems improved forecasting.

Entertainment

Robin Williams had an exceptional ability to recognize patterns in humor, politics, and human behavior. His improvisational comedy often drew on these observations, delivering unique and memorable performances.

These examples span various fields, showcasing the universal power of pattern recognition. Daniel says, *“Be careful, but be creative. Spend your attention on getting yourself out of Scotomaville!”*

“The human mind is not capable of grasping the Universe. We are like a little child entering a huge library. The walls are covered to the ceilings with books in many different tongues. The child knows that someone must have written these books. It does not know who or how. It does not understand the languages in which they are written. But the child notes a definite plan in the arrangement of the books—a mysterious order which it does not comprehend, but only dimly suspects.”

Albert Einstein

In personal development, Jim Rohn often emphasized recognizing patterns in behavior and thought. His advice to “work harder on yourself than you do on your job” reflects an understanding of how self-awareness can lead to personal and professional growth.

Awareness is good. Note some patterns you find in architecture, social behavior, news, media, etc. Recognize your reaction to these patterns.

Understanding is better. Note short and long-term beliefs, attitudes, and behaviors you have - ways of thinking and reacting - that align with or reject the patterns. Ask yourself why and when they began.

“Scotomaville” takes readers on an introspective journey into personal development. Through a seamless blend of philosophical dialogues, allegorical narratives, and psychological concepts, the book weaves an engaging exploration that appeals to both the mind and the heart. The author adeptly delves into themes such as perception, self-mastery, and the hero’s journey, showcasing a profound grasp of psychological processes and their influence on human behavior. **For those navigating the complexities of personal growth, the trilogy offers a transformative odyssey, illustrating that resilience and self-discovery are universal quests that resonate with individuals seeking to overcome inner challenges and doubts.**

This trilogy serves as **a reflection for military veterans and first responders**, echoing their sacrifices, camaraderie, and sense of purpose. The themes of adversity, seeking guidance, and embracing healing closely align with their experiences, providing a source of inspiration for those who have selflessly protected and served others.

For patriots and believers who hold their values dear, the trilogy presents character-driven narratives that mirror their dedication to higher principles. Exploring community, unity, and personal growth, the books align with their desire to positively contribute to society and reinforce the significance of collective well-being.

Fatherless individuals and young explorers identify with the trilogy’s portrayal of quests for identity and meaning. **The characters’ journeys from uncertainty to self-assuredness reflect the universal process of finding one’s place in the world, motivating young minds to navigate life’s puzzles with courage and determination.**

Moreover, **experts in fields from psychology and storytelling to stoic and biblical philosophy** will appreciate the trilogy’s profound concepts interwoven with relatable narratives. *The author’s mastery is evident in crafting a work that appeals to intellectual and emotional sensibilities alike.*

Throughout the trilogy, Daniel’s transformation serves as a relatable and inspiring narrative. His evolution from a curious seeker hindered by cognitive biases to a self-aware individual confronting inner doubts resonates deeply with readers.

In a world valuing personal growth, camaraderie, service, purpose, and self-discovery, **the Scotomaville Trilogy stands as proof of storytelling’s power to connect, inspire, and transform. Its pages offer lessons, insights, and reflections embracing the shared human experience, making it an essential read for individuals from all walks of life.** In conclusion, the trilogy’s rich philosophical discussions, relatable character arcs, and insightful exploration of cognitive biases contribute significantly to the fields of psychology and personal development.

Please express any correlation between my list of **strengths**, and a robust list of human **virtues**. Analyze the union of the two for shared characteristics and a deeper meaning.

Certainly! Let’s look at the intersection between the specific strengths from the Clifton StrengthsFinder that you provided (Achiever, Input, Learner, Activator, Belief) and a traditional list of virtues such as wisdom, courage, humanity, justice, temperance, and transcendence.

ACHIEVER

Virtue Correlation: Courage, Justice

Explanation: Achievers have a constant drive for accomplishing tasks. This can correlate with the virtue of courage, which involves persistence and vitality, and justice, where hard work and fairness contribute to the overall good of the community.

INPUT

Virtue Correlation: Wisdom

Explanation: People with the Input strength have a craving to know more, collecting and archiving information. This resonates with wisdom, which is characterized by a pursuit of knowledge and insightful judgment.

LEARNER

Virtue Correlation: Wisdom, Humanity

Explanation: A constant desire to improve and learn aligns with the virtue of wisdom. It may also

align with humanity if the learning is directed towards understanding others and improving social bonds.

ACTIVATOR

Virtue Correlation: Courage, Justice

Explanation: Activators are inclined to take action and want to make things happen. This aligns with courage, as it requires the boldness to initiate, and justice, where action may be directed towards equality and fairness.

BELIEF

Virtue Correlation: Transcendence, Justice

Explanation: The Belief strength is connected to core values and purpose. It aligns with transcendence, where there is a connection to something greater, and justice, where values often include fairness and equality.

Summary of Union (Intersection):

The union between these strengths and virtues reveals a **strong emphasis on wisdom** (through Input and Learner), **courage** (through Achiever and Activator), and **justice** (through Achiever, Activator, and Belief). The values of humanity and transcendence are also present but to a lesser extent.

This analysis suggests that a person with these strengths might be particularly well-suited for roles that require insightful judgment, bold action, and a strong sense of fairness and values. They may excel in leadership roles, educational fields, advocacy, or any area where wisdom, courage, and justice are paramount.

MASTER Forrest

To Angelina Musik-Comp:

I am deeply grateful for your stamina, patience, and support as my best friend and business partner. We have traveled the curves together in good cheer. You are amazingly resilient and a joyful character to explore with. I am grateful for your gift of HEALING matching my expression of UNDERSTANDING!

To you, the reader, and participant:

*When I imagined this project, I had a hunch the cost would be years of commitment - but not **five** years. What you might not imagine is that it took me far less time and angst to create the Wellness by Choice syndication, and the Scotomaville syndication of nearly twenty five thousand websites. And now we have AI.*

*I believe “**The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.**”. Fortunately AI still lacks subjective experiences, emotions, and self-reflective awareness - and thus our superpower of story-telling may yet be an error correcting trim-tab for super intelligent reasoning engines.*

Cheers to YOUR Greatest Expedition!
