AN INTERACTIVE - AI GUIDED - SELF-MASTERY EXPEDITION FOR LEAVING

SCOTOMAVILLE

The desire to understand ourselves, to unravel the mystery of **WIDWID**—Why I Do What I Do—connects us all. It’s a question I have pursued by cycling across America on three inspiring Journeys with a Purpose.

After decades of mishaps and 50,000 miles dragging an Airstream I no longer view **Know Thyself** as a luxury or a full-out competition with AI. With a team of like-minded thinkers (a self-defined minyan) empowered by a super-reasoning engine, I am becoming a thought leader and a sage celebrating the later execution phases of my Personal Everest with the help of a digital Sherpa.

Remember your first journey? I was hopeful yet unprepared, like a Fiat 500 strapped with a useless burden on my back. At first, this image represented my idealistic youthful exploration, a journey both underpowered and naive. Recently, I discovered a double meaning in the word ‘Fiat’ itself. Beyond the name of a car, it refers to a decree, an authoritative commandment. In my journey, these were the self-imposed life commandments from false conclusions I formed of misspoken judgments that had shaped my worldview. It was as if the very mascot of my exploration challenged me to escape the self-tyranny of my thinking. W.H. Murray noted we experience ‘**all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.**’ The discovery of the Fiat’s symbolic richness was one such unforeseen incident that deepened my journey.

Let Scotomaville guide you on your ‘Personal Everest,’ empowering you to share your wisdom and warning and to muster the courage to champion the rapidly accelerating changes we face. Join me by turning the life you inherited into the outcomes you design.

SCOTOMAVILLE ABSTRACT

■ BACKGROUND - WWDWWD

Most people respond to chaos and stress with coping mechanisms, amygdala hijackings, and reactive behavior. For some of us, curiosity dominates. We want to know **“Why We Do What We Do.”** and are committed to exploring the unknown... to ‘Know Thyself’. The Author cycled across America three times asking this.

The pandemic has challenged us with hardships, losses, setbacks, missed opportunities, and personal drama. ⁽¹⁾ Americans are weary of rapidly accelerating change.

We are flooded with messaging that games our biological and psychological bents ⁽²⁾. Emotions easily overwhelm our reasoning to control our actions. We’re further conflicted by being 100% wrong 50% of the time. ⁽³⁾ ⁽⁴⁾

We’re hoodwinked and bamboozled by tech, media, and popular narratives using trickery, flattery, and omission. ⁽⁵⁾ The adage to ‘Know Thyself’ is no longer a luxury. It’s become a full-out competition with supercomputers pointed at our brains. ⁽⁶⁾

■ METHODS - IMPARTATION

The Scotomaville program deploys the unique IMPARTATION METHODOLOGY, designed to guide participants in self-reflection and personal growth through video modeling. This methodology unfolds in a structured manner:

I Do - You Watch:

Drawing from our extensive experience as pioneers in the media, marketing, and web technology sectors since 1997, we video-journal our personal ‘journey with purpose’. Through these recordings, we share and demonstrate 15 invaluable mental tools, tests, and insights that enable resilience in facing challenges. Participants, armed with just a smartphone, can emulate our perseverance as we navigate adversities such as Traumatic Brain Injury, PTSD, and more.

We Do - We Watch:

The program is more than just watching; it’s engaging. Fifty-three episodes are complemented by a comprehensive 400+ page guide, enriched with opportunities for online discussions. Subscribers benefit from peer support, mentoring, and personalized guidance. Furthermore, the extensive digital reach, spanning over 4500 affiliated websites, allows for participant and sponsor recognition.

You Do - I Watch:

The Scotomaville journey doesn’t end with passive learning. Upcoming offerings include transformative base camp summits, private retreats, and expeditions for leaders. With the program’s licensed platform, certified leaders can guide individuals and groups, encouraging them to tread the transformative path we demonstrate.

■ FINDINGS - SELF-GAMING

By climbing a ‘Personal Everest’ and testing for oneself, the claims of W.H. Murray, and the Authors that Expeditions are filled with **“unforeseen incidents and meetings and material assistance, which no one could have dreamt would have come their way”** ⁽⁹⁾ you can develop clarity, stability, healing, and successes by gaming your biases.

Self-mastery begins with awareness of one’s physical and mental self. When combined with understanding, support, and discipline, incremental character change transforms one’s beliefs, attitudes, and behavior.

SCOTOMAVILLE reveals the intricate interdependence between our gut and brain, demonstrating how sleep patterns and stress levels influence our choices. By emphasizing the perils of tackling challenges solo and showcasing actionable insights and examples, the program empowers individuals to recognize and navigate their inherent cognitive biases.

■ CONCLUSION - PERSONAL EVEREST

A ‘Personal Everest’ is a journey with a purpose. **“But at least learn your inability... and ask the remedy for it. Learn of those who have been bound like you... These are people who know the way which you would follow, and who are cured of an ill of which you would be cured. Follow the way by which they began...”**

Blaise Pascal - Pascals Wager ⁽¹⁰⁾

A Personal Everest is a journey with a purpose. It is a self-defined expedition of personal development, with support and guidance from peers and the Author, and analysis by AI.

SCOTOMAVILLE is an unconventional and effective self-help model and platform with a convincing challenge: We can change our life experiences by gaming our own handicaps, strengthening alliances, challenging our shortcomings and changing our false beliefs by taking on our Personal Everest.

STRENGTHS OFFENDER

VOL 1 AWARENESS

.13

The Strengths we rely on in the marketplace turn out to be our coping mechanisms - the way we offend those closest to us.

Welcome to a fabulous day in Scotomaville!

Yeah, you like the Hat? It's my Soaring Society of America pin - and glider pilot hat to keep the sunburn off my head.

Today we're talking about 'strengths offender.' We're going to talk about how the thing that makes you-you, that strength that you have persevered to develop that becomes your identity to find some anchor of who you are known as - that very thing that gives you value in the market - that's your strength!

We're going to talk about how to find it and then how to slay it! Because you see, it turns out that your strength is a coping mechanism from your childhood wounds.

Here comes the sheriff's helicopter.

Man, is it low and noisy right over my head. Talk about a demonstration strength? It's offensive!

Strengths Finder Assessment

I took an assessment over a decade ago called the Clifton Strengths Finder Assessment. Google for the Gallup store and take the top 5 Clifton Strengths test for 20 bucks.

How Our Strengths Shape Us

The assessment essentially records your 'reactive' behavior. You know, the first and fastest answer for a whole series of questions. You want to take the assessment to reap a vocabulary that gives you distinction and a bridge to other Explorers.

The reason it's so important to know your strengths is not for you. It's for everyone around you! It's a scotoma on how we feel offended, and we need the labels to talk about it.

Offending with Our Strengths

We consider our strengths to be 'NORMAL,' but our strengths set the bar so high for everyone around us that that's how we offend everyone! My 'Achiever' is way above everybody else's!

It's not what we find out about our strengths. It's the scotoma of our strengths. It's that our strengths are precisely how we wear other people out, how we wound them! It's how I get that glazed look over everyone when I start tarking... start tarking? Oh, that's an Asperger moment!

I get a glazed look over people's faces when I start talking! Of course, I'm acting 'normal,' but it's too much for most people!

Achiever, input, learner, that's a Vulcan mind-meld!

That's unfair to do to everybody - but it's my routine.

Strengths in Tough Times

How do you think an achiever - input - learner would deal with the lock-down of a global pandemic? I'd create an edu-taining video series using whatever tools I have, aiming to help someone learn something incredible!

The unfortunate part of knowing your strengths is that you'll start

seeing them emerge all the time. They will be the obstacles, the challenges, the things that frustrate you while summiting your Personal Everest.

I want to do things in less time than it takes. I want to go further, higher, do more because that got childhood attention.

Like you, I formed beliefs from dysfunctional things in my family of origin. I believed that my only value came from being able to DO! Not who I became or who I am. I DID for others and with others that gave me meaning and purpose, and identity.

Whenever I get frustrated at things not going as I imagined, I get more leverage; I press a little harder, I get more done in less time. I speed up my words, and other people can't understand me as well. So I habitually frustrate and offend others - like the Star Trek character Spock.

My strengths are great during a global pandemic. I can shoot a video series and take a 'Master Class,' giving Angelina time away from me.

I can dig in and scrub a toilet and fix stuff BEFORE it breaks. That's an achiever. That's how I can easily offend other people.

The Path to Self-Mastery

Getting out of Scotomaville requires a 'test' to find out what your strengths are, and self-assessment on how they're being used to wound others, and how they betray your aim at self-mastery and personal growth.

For example:
Learning new ways of coping with things, learning new skills, and not relying on the things that you have tens of thousands of hours of practice with - that's a tough one. It takes a lot of time, a lot of effort, a lot of

stumbles being triggered and taking the trash out and going for a walk and peeling the onion and figuring out where it came from - and then changing that mis-belief into an adult belief. Doing so forced those myelinated sheaths to decay, moving the effort toward building new pathways, new thoughts, and then into new habits where the outcomes are ones that YOU have designed!

Well, that is a lot! There's a pattern in there of what you can do when you know your strengths.

Invest the twenty bucks. Take the Clifton Strengths Finder Assessment. Learn the labels for your top five strengths.

From that, we can walk new pathways with tools to discover hundreds of ways that those strengths are masking poor self-esteem or a shortfall of confidence covering up for fears, anxieties, things that you don't want to face.

“LIVE LONG AND PROSPER”
AKA: ACHIEVER LEARNER INPUT

“WE COMPENSATE FOR OUR WOUNDS WITH OUR
‘NORMAL’ TRAITS. THEY’RE IDENTIFIED AS
‘STRENGTHS’ THAT WE WEAR PEOPLE OUT WITH.”

Challenging Our Strengths

The leading frustration I have extends from my top strength of ACHIEVER. I expect we should have been in our new Airstream four to five weeks ago! I can’t make it happen. It’s out of my control. Everything I can muster is not enough. It seems the obstacle is the way.

So it becomes my torment, the very thing that stirs me up the most inside. I can’t use my strength to produce a different outcome. It doesn’t work. What about changing my thoughts about the obstacle?

The experience I need to learn from is right in front of me. But I can’t use my strengths to change it. I can’t dig my way out of a global pandemic to deliver a 30-foot Airstream, even though it’s sitting in the warehouse. So I have to be patient and wait, but patience is NOT something an ACHIEVER wants.

Don’t miss that reveal. That’s a statement I will address. I recorded it in this episode and watched myself saying I’m NOT patient because I am an Achiever. That’s why editing your story is a powerful awareness mirror.

Embracing Opportunities for Growth

It turned out that waiting for another six months and producing Volume 2 is what I needed to climb BEFORE we would move into the larger Airstream. Look forward to pages 226 as a spoiler...

I hope to encourage you. Grab hold of the opportunities as they come up to identify coping strengths and to deal with the underlying beliefs. Accept the opportunities that come to teach you, as I am.

*You can change! **I did!***

Please express any correlation between my list of **strengths**, and a robust list of human **virtues**. Analyze the union of the two for shared characteristics and a deeper meaning.

Certainly! Let’s look at the intersection between the specific strengths from the Clifton StrengthsFinder that you provided (Achiever, Input, Learner, Activator, Belief) and a traditional list of virtues such as wisdom, courage, humanity, justice, temperance, and transcendence.

ACHIEVER

Virtue Correlation: Courage, Justice

Explanation: Achievers have a constant drive for accomplishing tasks. This can correlate with the virtue of courage, which involves persistence and vitality, and justice, where hard work and fairness contribute to the overall good of the community.

INPUT

Virtue Correlation: Wisdom

Explanation: People with the Input strength have a craving to know more, collecting and archiving information. This resonates with wisdom, which is characterized by a pursuit of knowledge and insightful judgment.

LEARNER

Virtue Correlation: Wisdom, Humanity

Explanation: A constant desire to improve and learn aligns with the virtue of wisdom. It may also

align with humanity if the learning is directed towards understanding others and improving social bonds.

ACTIVATOR

Virtue Correlation: Courage, Justice

Explanation: Activators are inclined to take action and want to make things happen. This aligns with courage, as it requires the boldness to initiate, and justice, where action may be directed towards equality and fairness.

BELIEF

Virtue Correlation: Transcendence, Justice

Explanation: The Belief strength is connected to core values and purpose. It aligns with transcendence, where there is a connection to something greater, and justice, where values often include fairness and equality.

Summary of Union (Intersection):

The union between these strengths and virtues reveals a **strong emphasis on wisdom** (through Input and Learner), **courage** (through Achiever and Activator), and **justice** (through Achiever, Activator, and Belief). The values of humanity and transcendence are also present but to a lesser extent.

This analysis suggests that a person with these strengths might be particularly well-suited for roles that require insightful judgment, bold action, and a strong sense of fairness and values. They may excel in leadership roles, educational fields, advocacy, or any area where wisdom, courage, and justice are paramount.

Charlie Duke

"As an Astronaut (Apollo 16 Lunar Module Pilot & 10th man on the Moon). I was very familiar with powerful planes and rockets. I've learned to trust my life and business on great tools and competent people. Daniel and Angelina have put together an amazing system for small business that is technically advanced, yet doesn't take a rocket scientist to run it. I highly recommend their services - I didn't settle for anything less!"

To Angelina Musik-Comp:

I am deeply grateful for your stamina, patience, and support as my best friend and business partner. We have traveled the curves together in good cheer. You are amazingly resilient and a joyful character to explore with. I am grateful for your gift of HEALING matching my expression of UNDERSTANDING!

To you, the reader, and participant:

*When I imagined this project, I had a hunch the cost would be years of commitment - but not **five** years. What you might not imagine is that it took me far less time and angst to create the Wellness by Choice syndication, and the Scotomaville syndication of nearly twenty five thousand websites. And now we have AI.*

*I believe “**The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.**”. Fortunately AI still lacks subjective experiences, emotions, and self-reflective awareness - and thus our superpower of story-telling may yet be an error correcting trim-tab for super intelligent reasoning engines.*

Cheers to YOUR Greatest Expedition!
