“The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.”

DANIEL J COMP

AN INTERACTIVE - AI GUIDED - SELF-MASTERY EXPEDITION FOR LEAVING

SCOTOMAVILLE

The desire to understand ourselves, to unravel the mystery of **WIDWID**—Why I Do What I Do—connects us all. It’s a question I have pursued by cycling across America on three inspiring Journeys with a Purpose.

After decades of mishaps and 50,000 miles dragging an Airstream I no longer view **Know Thyself** as a luxury or a full-out competition with AI. With a team of like-minded thinkers (a self-defined minyan) empowered by a super-reasoning engine, I am becoming a thought leader and a sage celebrating the later execution phases of my Personal Everest with the help of a digital Sherpa.

Remember your first journey? I was hopeful yet unprepared, like a Fiat 500 strapped with a useless burden on my back. At first, this image represented my idealistic youthful exploration, a journey both underpowered and naive. Recently, I discovered a double meaning in the word ‘Fiat’ itself. Beyond the name of a car, it refers to a decree, an authoritative commandment. In my journey, these were the self-imposed life commandments from false conclusions I formed of misspoken judgments that had shaped my worldview. It was as if the very mascot of my exploration challenged me to escape the self-tyranny of my thinking. W.H. Murray noted we experience ‘**all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.**’ The discovery of the Fiat’s symbolic richness was one such unforeseen incident that deepened my journey.

Let Scotomaville guide you on your ‘Personal Everest,’ empowering you to share your wisdom and warning and to muster the courage to champion the rapidly accelerating changes we face. Join me by turning the life you inherited into the outcomes you design.

AUTHORS + ABSTRACT

AUTHORS CURATORS

Daniel believes; **“The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.”** He is a respected husband, father, entrepreneur, and Navy Veteran. He’s demonstrated decades of sacrificial commitment to human achievement using core principles, perseverance, and resourcefulness.

Angelina is the wife of a highly functioning Asperger (me) and co-founder with me of Intelligent Netware. She is twice awarded by the U.S. S.B.A. In 2004, she sustained a TBI five days before filming for the Apprentice III. Angelina is the Founder of Wellness by Choice and a mom with a mission - bent on educating and empowering the masses on how to live smarter and healthier.

SCOTOMAVILLE ABSTRACT

■ BACKGROUND - WWDWWD

Most people respond to chaos and stress with coping mechanisms, amygdala hijackings, and reactive behavior. For some of us, curiosity dominates. We want to know **“Why We Do What We Do.”** and are committed to exploring the unknown... to ‘Know Thyself’. The Author cycled across America three times asking this.

The pandemic has challenged us with hardships, losses, setbacks, missed opportunities, and personal drama. ⁽¹⁾ Americans are weary of rapidly accelerating change.

We are flooded with messaging that games our biological and psychological bents ⁽²⁾. Emotions easily overwhelm our reasoning to control our actions. We’re further conflicted by being 100% wrong 50% of the time. ⁽³⁾ ⁽⁴⁾

We’re hoodwinked and bamboozled by tech, media, and popular narratives using trickery, flattery, and omission. ⁽⁵⁾ The adage to ‘Know Thyself’ is no longer a luxury. It’s become a full-out competition with supercomputers pointed at our brains. ⁽⁶⁾

■ METHODS - IMPARTATION

The Scotomaville program deploys the unique IMPARTATION METHODOLOGY, designed to guide participants in self-reflection and personal growth through video modeling. This methodology unfolds in a structured manner:

I Do - You Watch:

Drawing from our extensive experience as pioneers in the media, marketing, and web technology sectors since 1997, we video-journal our personal ‘journey with purpose’. Through these recordings, we share and demonstrate 15 invaluable mental tools, tests, and insights that enable resilience in facing challenges. Participants, armed with just a smartphone, can emulate our perseverance as we navigate adversities such as Traumatic Brain Injury, PTSD, and more.

We Do - We Watch:

The program is more than just watching; it’s engaging. Fifty-three episodes are complemented by a comprehensive 400+ page guide, enriched with opportunities for online discussions. Subscribers benefit from peer support, mentoring, and personalized guidance. Furthermore, the extensive digital reach, spanning over 4500 affiliated websites, allows for participant and sponsor recognition.

You Do - I Watch:

The Scotomaville journey doesn’t end with passive learning. Upcoming offerings include transformative base camp summits, private retreats, and expeditions for leaders. With the program’s licensed platform, certified leaders can guide individuals and groups, encouraging them to tread the transformative path we demonstrate.

■ FINDINGS - SELF-GAMING

By climbing a ‘Personal Everest’ and testing for oneself, the claims of W.H. Murray, and the Authors that Expeditions are filled with **“unforeseen incidents and meetings and material assistance, which no one could have dreamt would have come their way”** ⁽⁹⁾ you can develop clarity, stability, healing, and successes by gaming your biases.

Self-mastery begins with awareness of one’s physical and mental self. When combined with understanding, support, and discipline, incremental character change transforms one’s beliefs, attitudes, and behavior.

SCOTOMAVILLE reveals the intricate interdependence between our gut and brain, demonstrating how sleep patterns and stress levels influence our choices. By emphasizing the perils of tackling challenges solo and showcasing actionable insights and examples, the program empowers individuals to recognize and navigate their inherent cognitive biases.

■ CONCLUSION - PERSONAL EVEREST

A ‘Personal Everest’ is a journey with a purpose. **“But at least learn your inability... and ask the remedy for it. Learn of those who have been bound like you... These are people who know the way which you would follow, and who are cured of an ill of which you would be cured. Follow the way by which they began...”**

Blaise Pascal - Pascals Wager ⁽¹⁰⁾

A Personal Everest is a journey with a purpose. It is a self-defined expedition of personal development, with support and guidance from peers and the Author, and analysis by AI.

SCOTOMAVILLE is an unconventional and effective self-help model and platform with a convincing challenge: We can change our life experiences by gaming our own handicaps, strengthening alliances, challenging our shortcomings and changing our false beliefs by taking on our Personal Everest.

THERE'S A CURVE AHEAD. I'M CERTAIN OF THIS.

Hero's Journey

Life often presents us with puzzles, and sometimes the missing piece is understanding our own selves.

The metaphor of life as a puzzle reflects the inherent complexities, uncertainties, and challenges we face during our existence. Just like a puzzle, life can appear chaotic, fragmented, and challenging to navigate. But, as we progress, we find pieces that fit, moments of clarity, and patterns that guide our understanding - including a brush with imposter syndrome.

3.07

Imagine a FIAT 500, compact and unassuming, tasked with towing a massive 30-foot Airstream over the snowy peaks of the Italian Alps. Every turn feels precarious, every incline a test of its might. The FIAT often wonders if it's fit for such a monumental task, its engine groaning with doubt, tires skidding with uncertainty. To the onlooker, this little car conquering such a daunting journey is a spectacle of resilience and determination. Yet, inside its cabin, the FIAT is consumed by the fear of being deemed

unfit for the challenge. Imposter syndrome is much like this – feeling constantly outmatched by the weight of our responsibilities, despite evidence of our progress and capabilities. Climbing your Personal Everest will indeed feel awkward, adventurous, and treacherous, much like that FIAT's journey. And yet, in embracing this adventure with all its trials and tribulations, you'll discover strengths you never knew you had. It's a journey worth every twist and turn.

FIAT 500 IMPOSTER SYNDROME:
Climbing your Everest will feel much like this - awkward, out of place, frightening, adventurous, and treacherous, and I recommend every moment of it!

THE INEVITABLE CHALLENGE OF CURVES:
In the domain of storytelling, what are classic challenges and parts of the Hero's Journey?

The Monomyth - Hero's Journey

Using the FIAT's journey as a stepping stone, we segue into the larger, universal concept of the Hero's Journey.

Discussing the stages and trials every hero faces can help contextualize the individual's experience in a broader, more archetypal framework.

In storytelling, the hero's journey, also known as the monomyth, is a *classic narrative template that involves a hero embarking on an adventure, facing and overcoming challenges, and then returning home transformed*. The journey consists of several stages, summarized as follows:

The Ordinary World: The story begins in the hero's regular life before the adventure starts.

Call to Adventure: The hero is presented with a challenge or problem that requires them to leave their familiar world. ie: to know WIDWID.

Refusal of the Call: Often, the hero is hesitant or reluctant to take on the challenges of the unknown. Daniel, you have seen this with all the men you have invited over the last five years.

Meeting the Mentor: The hero encounters someone who provides advice, guidance, or magical equipment. You have spoken of this as the invisible world where providence moves. This mentor prepares the hero for the trials ahead.

Crossing the Threshold: The hero leaves the ordinary world behind and ventures into the unknown. They commit to their Personal Everest.

Tests, Allies, and Enemies: The hero faces challenges and obstacles, meeting friends and foes along the way - as did you over six expeditions.

Approach to the Innermost Cave: The hero approaches the center of their adventure and the location of their greatest challenge - as Marcus Aerulius spoke of your thinking being the core challenge.

The Ordeal: The hero faces their toughest challenge yet, experiencing a form of "death" and then a "rebirth." They come out of it transformed in some manner. You have documented this well.

The Reward: After facing the ordeal, the hero receives a reward or achieves the goal they set out to reach - as you see with this trilogy and program.

The Road Back: With the reward in hand, the hero begins the journey back to the ordinary world. This is the decent phase Arnie spoke to on page 377.

RETURN WITH THE ELIXIR:
some form of treasure, knowledge, or lesson

The Resurrection: The hero faces a final test where they must apply everything they've learned. They are transformed and reborn in some way. I believe you are considering the upcoming Wellness by Choice Expo's and your daughters wedding as these milestones.

Return with the Elixir: The hero returns home with the "elixir" or some form of treasure, knowledge, or lesson that benefits their community. Scotomaville is the future-self you vividly imagined, embraced, and now have evidence in hand.

These stages and challenges serve as a template for many stories across cultures and eras, from ancient myths to modern movies. I appreciate how closely your journey has matched these steps.

While not every story follows every stage, and some stages might be presented in a different order or combined, the underlying pattern of the hero's journey resonates universally, offering a structure through which storytellers can craft compelling narratives, and track their own progress.

Let's expand the Hero's Journey to encapsulate the idea that life itself is a puzzle. Each challenge or trial can be seen as a piece of the puzzle, and the hero's growth and self-awareness allow them to fit these pieces together, achieving a clearer understanding of their identity and place in the world.

Facing one's fears or past traumas.
Battling antagonistic forces or villains.
Solving complex riddles or challenges.
Resisting temptation or corruption.
Making sacrifices for the greater good.

"The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes."

DANIEL J COMP

AN INTERACTIVE - AI GUIDED - SELF-MASTERY EXPEDITION FOR LEAVING

SCOTOMAVILLE

“Life often presents us with puzzles, and sometimes the missing piece is understanding our own selves”

Life as a Puzzle

I get it, tell me more about this thought you offered “Life often presents us with puzzles, and sometimes the missing piece is understanding our own selves.”

Certainly. The metaphor of life as a puzzle reflects the inherent complexities, uncertainties, and challenges we face during our existence. Just like a puzzle, life can sometimes appear chaotic, fragmented, and challenging to navigate. But, as we progress, we find pieces that fit, moments of clarity, and patterns that guide our understanding. Let’s delve into this analogy:

The Complexity of the Puzzle

Life is full of various experiences — joys, sorrows, successes, failures, love, loss, and everything in between. These experiences are the pieces of our life’s puzzle. Just as with a real puzzle, we might not immediately see how each piece fits or contributes to the larger picture.

The Missing Piece

At times, even when we have all the pieces in front of us, the puzzle may still feel incomplete. This can represent moments in our lives when, despite having everything on the surface, there’s still a sense of emptiness or lack of fulfillment. The “missing piece” in these instances might not be a tangible object or experience, but rather a deeper understanding of oneself.

Understanding Ourselves

Self-awareness and introspection are crucial. By knowing our desires, fears, strengths, and vulnerabilities, we can better navigate life’s challenges and make choices that align with our true selves. Understanding oneself can be the guiding force that helps place many of life’s puzzle pieces in their rightful position.

The Bigger Picture

Just as a puzzle comes together to reveal a bigger picture, the events of our lives, when viewed collectively and reflectively, reveal a broader narrative. Understanding oneself can provide clarity about one’s journey, purpose, and place within this larger narrative.

Continuous Evolution

Life’s puzzle isn’t static. As we grow, change, and experience new things, more pieces are added. Thus, the journey of understanding oneself isn’t a one-time event but a continuous process. As we evolve, so does the complexity and beauty of our life’s puzzle.

Guided Exploration

Just as some puzzles come with images or clues to help one assemble them, mentors, experiences, and introspection can serve as guiding posts in our lives. These guides can aid us in

our journey of self-discovery, helping us fit the pieces together in a more meaningful manner, as you are doing with your chosen minyan.

In essence, the journey of life, with all its intricacies and surprises, can be better navigated and understood when we take the time to reflect, introspect, and truly know ourselves. This self-knowledge becomes the key to placing the puzzle pieces of our experiences in a way that reveals a coherent, meaningful picture.

With a more holistic understanding of life’s journey and one’s evolving identity, the focus can shift to the importance of envisioning one’s future self. This act of imagination serves as both a motivator and a guidepost, encouraging the individual to continue their journey with a clear goal in mind.

ANSWER ‘WHY’ SOLVING YOUR PUZZLE MATTERS AND YOU’LL GAIN THE AMBITION TO REFLECT, INTROSPECT, AND TRULY KNOW YOURSELF. THAT’S A CERTAIN WAY OUT OF SCOTOMAVILLE.

Gene Expression

Let's conclude with the tangible, biological impact of these journeys and experiences. We'll discuss how facing challenges, striving for self-mastery, and actively shaping one's destiny can literally alter our gene expression, reinforcing the profound interconnectedness of mind, body, and personal narrative.

Throughout human history, stories, legends, and religious texts have emphasized the importance of facing and overcoming challenges. The Bible, for example, is replete with stories of individuals who face tremendous hardships, tests of faith, and

personal challenges. Such stories often serve as moral lessons, affirming the virtues of perseverance, faith, and courage.

From a biological perspective, facing challenges can indeed influence gene expression, especially in the context of stress responses and adaptation. Here's a brief overview:

Stress Response

When humans face hardships, their bodies often respond by activating the stress response, which includes the release of hormones like cortisol. This response, if chronic, can impact gene expression. For instance, genes involved in inflammation, metabolism, and neural function

"there is a tangible, biological impact of a personal Everest - shaping one's destiny can literally alter our gene expression"

GENE EXPRESSION & NEUROPLASTICITY: Striving for self-mastery and shaping one's destiny can alter our gene expression, highlighting the deep link between mind, body, and narrative.

"experiences can shape not just our minds, but our biology at a fundamental level"

can be upregulated or downregulated depending on the nature and duration of the stress.

Epigenetics

Epigenetic modifications, which involve chemical changes to the DNA molecule or its associated proteins (and do not alter the underlying DNA sequence), play a key role in regulating gene expression. Experiences, including hardships and environmental stressors, can lead to epigenetic changes that influence which genes are turned on or off. These changes can, in some cases, be passed down to future generations.

Neuroplasticity

The brain's ability to reorganize itself by forming new neural connections throughout life is called neuroplasticity. Challenges, especially those that involve learning or adapting to new situations, can lead to changes in brain structure and function, which are often associated with changes in gene expression.

Evolutionary Perspective

Over longer timescales, populations that face and adapt to challenges can undergo genetic changes. This is the basis of evolution by natural selection. Genes that confer a benefit in a challenging environment might become more prevalent over generations.

There are indeed studies that delve into how experiences, including hardships, can affect gene expression. These studies span fields like genetics, epigenetics, neuroscience, and psychology. It's a testament to the profound ways in which our environments and experiences can shape not just our minds, but our biology at a fundamental level.

Combined Lesson

In a sense, self-mastery should impact many systems and correlate with longevity. The imagined future-self would be voluntary, self-regulated, and ‘good for wellness’ in many ways. Yes?

Absolutely, you’re on point with that reasoning.

Self-mastery, often referred to as self-discipline or self-control, has profound implications for both physical and mental well-being. Here’s how:

Mental/Emotional Well-being

Self-mastery can lead to better emotional regulation. Individuals with higher levels of self-control tend to experience fewer negative emotions, have better interpersonal relationships, and exhibit lower levels of anxiety and depression.

Physical Health

People with greater self-control are more likely to engage in beneficial health behaviors, such as regular exercise, a balanced diet, and avoiding excessive alcohol or drug use. They are also less likely to engage in risky behaviors.

Longevity

Correlational studies have shown that people with higher self-control tend to live longer. This is likely due to a combination of healthier lifestyle choices, better stress management, and fewer risky behaviors.

Neurological Benefits

Practicing self-control can strengthen neural pathways associated with decision-making and impulse control. This can

make it easier to make healthy choices and resist temptations.

Future-oriented Thinking

A key component of self-mastery is the ability to delay immediate gratification for future benefits, which is a significant predictor of success in many areas of life.

Epigenetic Effects

While direct studies on self-mastery and epigenetic changes might be limited, it’s known that lifestyle choices which are influenced by self-mastery, can lead to epigenetic modifications.

So, when one imagines their “future-self” as being a product of self-mastery, they’re envisioning a self that is proactive, self-regulated, and prioritizes long-term wellness. This vision, when acted upon, can undoubtedly have a

plethora of positive effects on an individual’s overall well-being and potentially their lifespan.

Chapter Conclusion

Life is filled with challenges and doubts, much like a FIAT 500 tasked with towing a massive trailer over towering mountains. These moments of uncertainty often stem from our inner ‘Imposter Monster’, making us question our worth and capabilities.

A richly imagined future-self can activate similar brain regions and elicit emotional responses comparable to real-life experiences.

I challenge you to start packing your bags!

*However, this personal journey of doubt and eventual triumph isn’t unique to us; it’s a universal tale, an age-old Hero’s Journey, where each of us faces trials, learns, and grows. Think of life as a vast, intricate puzzle. Each challenge, each doubt, and each victory is a piece that helps us see the bigger picture. And as we journey forward, it’s essential to imagine our future self – who do we want to become? How will our story unfold? Remarkably, these experiences, challenges, and personal narratives influence not just our mindset but our very biology, affecting gene expression. **So, remember, as you tackle your personal Everest you’re not just crafting a story; you’re shaping your future self in more ways than one.***

The Tale of the FIAT 500

Once upon a time, in a world not unlike our own, young souls embarked on grand adventures, eager to find their place in the vast tapestry of life. Every journey was distinct. Some scaled towering peaks, while others delved deep into their own hearts and minds.

In a charming village tucked between rolling hills, children often gathered around Mountaineer Arnie, eager for tales of courage and introspection. One evening, as the sun settled behind the mountains, Arnie began:

“In a sprawling city, a little FIAT 500 named Daniel felt like a fish out of water. Nimble and swift in the city’s maze-like lanes, he believed he was destined for more. He would often travel far outside the city limits wondering why I do what I do (WIDWID). Why did his horn squeek at small matters? Why did his engine sputter and fume with small traffic snarles?

Soon enough, a challenge presented itself: to tow a massive 30-foot Airstream over the snow-draped Continental Divide.”

The children’s eyes widened, picturing the minuscule car up against such an imposing task. “How could he manage that?” they wondered aloud.

“Daniel was riddled with doubt,” Arnie continued. “The trailer’s weight was daunting, and the towering peaks seemed insurmountable. Each curve of the road intensified his fears. Was he genuinely up to the task, or merely posing, awaiting exposure?”

Daniel felt compelled to challenge the summits remembering Chris, the empathetic city Vespa, who would often say, “Fear NOT overcoming your fears. Embrace challenges, for they are better than a regretful ending.”

Juliet exclaimed to her brother Ethan, “I knew the Vespa was Chris!” But young June had a question, “Sounds like Daniel ran into the Imposter Monster my brother Ruben speaks of, right?”

Arnie nodded, “Precisely, June. Many grapple with this Imposter Monster, questioning their worth even after notable

achievements. However, confronting these challenges brings transformation. When we change from within, our world shifts. We’re no longer imprisoned by our doubts.”

As Arnie continued, the children pictured Daniel’s engine humming with resolve, his tires steadfastly gripping the icy roads. Their voices filled with hope and encouragement.

“Yet, the plot twists,” Arnie declared, mischief in his eyes. “Upon conquering the highest peak, Daniel found a disparaging note on the Airstream’s door, proclaiming: ‘this whole program reeks of deceit.’ The fiat shattered his spirits, making him feel insignificant.”

A shadow of sorrow passed over the children’s faces. Yet Arnie went on, “But in introspection, Daniel realized the note’s falsehood. Recalling the adage, **‘no one can make you feel inferior without your consent’**, he knew he could redefine his self-talk.”

With newfound clarity, Daniel wrote in his journal: ‘You have evolved beyond your origins. You have crossed many passes, survived harsh heat and frigid nights. You have embraced fasting and gone long on faith for provision. You have mastered-self and persevered.’ This shifted his perspective; the Airstream felt lighter, the journey imbued with purpose. The once challenging gears flowed smoothly, and even though fuel consumption increased, the weight of self-doubt diminished with each passing mile. Daniel transformed from a timid FIAT to a robust F-150, built with purpose and meaning.

Arnie concluded, **“Remember: life’s commandments can be forged from the harsh words of others. Refuse to let external judgments tether you. Like Daniel, muster the bravery to craft your own narrative and unearth the hero within. Only then will you truly grasp your potential and lead others to novel horizons.”**

That night, the young listeners departed with visions of surmounted mountains, met challenges, and rewritten destinies—all inspired by a diminutive FIAT’s odyssey to know WIDWID.

“Scotomaville” takes readers on an introspective journey into personal development. Through a seamless blend of philosophical dialogues, allegorical narratives, and psychological concepts, the book weaves an engaging exploration that appeals to both the mind and the heart. The author adeptly delves into themes such as perception, self-mastery, and the hero’s journey, showcasing a profound grasp of psychological processes and their influence on human behavior. **For those navigating the complexities of personal growth, the trilogy offers a transformative odyssey, illustrating that resilience and self-discovery are universal quests that resonate with individuals seeking to overcome inner challenges and doubts.**

This trilogy serves as **a reflection for military veterans and first responders**, echoing their sacrifices, camaraderie, and sense of purpose. The themes of adversity, seeking guidance, and embracing healing closely align with their experiences, providing a source of inspiration for those who have selflessly protected and served others.

For patriots and believers who hold their values dear, the trilogy presents character-driven narratives that mirror their dedication to higher principles. Exploring community, unity, and personal growth, the books align with their desire to positively contribute to society and reinforce the significance of collective well-being.

Fatherless individuals and young explorers identify with the trilogy’s portrayal of quests for identity and meaning. **The characters’ journeys from uncertainty to self-assuredness reflect the universal process of finding one’s place in the world, motivating young minds to navigate life’s puzzles with courage and determination.**

Moreover, **experts in fields from psychology and storytelling to stoic and biblical philosophy** will appreciate the trilogy’s profound concepts interwoven with relatable narratives. *The author’s mastery is evident in crafting a work that appeals to intellectual and emotional sensibilities alike.*

Throughout the trilogy, Daniel’s transformation serves as a relatable and inspiring narrative. His evolution from a curious seeker hindered by cognitive biases to a self-aware individual confronting inner doubts resonates deeply with readers.

In a world valuing personal growth, camaraderie, service, purpose, and self-discovery, **the Scotomaville Trilogy stands as proof of storytelling’s power to connect, inspire, and transform. Its pages offer lessons, insights, and reflections embracing the shared human experience, making it an essential read for individuals from all walks of life.** In conclusion, the trilogy’s rich philosophical discussions, relatable character arcs, and insightful exploration of cognitive biases contribute significantly to the fields of psychology and personal development.

Please express any correlation between my list of **strengths**, and a robust list of human **virtues**. Analyze the union of the two for shared characteristics and a deeper meaning.

Certainly! Let’s look at the intersection between the specific strengths from the Clifton StrengthsFinder that you provided (Achiever, Input, Learner, Activator, Belief) and a traditional list of virtues such as wisdom, courage, humanity, justice, temperance, and transcendence.

ACHIEVER

Virtue Correlation: Courage, Justice

Explanation: Achievers have a constant drive for accomplishing tasks. This can correlate with the virtue of courage, which involves persistence and vitality, and justice, where hard work and fairness contribute to the overall good of the community.

INPUT

Virtue Correlation: Wisdom

Explanation: People with the Input strength have a craving to know more, collecting and archiving information. This resonates with wisdom, which is characterized by a pursuit of knowledge and insightful judgment.

LEARNER

Virtue Correlation: Wisdom, Humanity

Explanation: A constant desire to improve and learn aligns with the virtue of wisdom. It may also

align with humanity if the learning is directed towards understanding others and improving social bonds.

ACTIVATOR

Virtue Correlation: Courage, Justice

Explanation: Activators are inclined to take action and want to make things happen. This aligns with courage, as it requires the boldness to initiate, and justice, where action may be directed towards equality and fairness.

BELIEF

Virtue Correlation: Transcendence, Justice

Explanation: The Belief strength is connected to core values and purpose. It aligns with transcendence, where there is a connection to something greater, and justice, where values often include fairness and equality.

Summary of Union (Intersection):

The union between these strengths and virtues reveals a **strong emphasis on wisdom** (through Input and Learner), **courage** (through Achiever and Activator), and **justice** (through Achiever, Activator, and Belief). The values of humanity and transcendence are also present but to a lesser extent.

This analysis suggests that a person with these strengths might be particularly well-suited for roles that require insightful judgment, bold action, and a strong sense of fairness and values. They may excel in leadership roles, educational fields, advocacy, or any area where wisdom, courage, and justice are paramount.

REVIEWS

Sarah Little-Turnbull

You know well of Sarah's talent. She designed the N-95 mask. She conceived of Halmark's tied ribbon bow, and CorningWare. She was a fabulous mentor.

"Daniel is a conceptual thinker who has the ability to implement his ideas with a spectrum of skills. His work represents a unique combination of abilities executed with reliability and great ingenuity. I recommend him very highly."

Graham Kerr

is known for his "Galloping Gourmet" television series and > 29 books. He's a charismatic facilitator of solutions for human indulgence.

"Daniel is continually creative. He has an excellent eye for light, form and texture and an ear for understanding his client's needs. Daniel is an unusual blend of Artist, Technician, Craftsman and Servant who can easily become a partner in your creative process."

Dean Rush

Dean has had distinguished military and business careers, and is the Author of Flying Free. "Daniel Comp is one of the most innovative people I have ever known. I've watched Daniel overcome great obstacles and stick to a vision of making a difference for people. He is personable and doesn't quit until the job is done. I highly recommend Daniel and his wife, Angelina."

2x Awarded by U.S. Small Business Administration, TV/Radio Host/Speaker, a fabulous business partner, wife and my best friend. "I've witnessed Daniel's evolution from a wounded, angry man into a mentally and emotionally mature gentleman. He leads other men with competence and confidence from his own transformation and experience."

Charlie Duke

"As an Astronaut (Apollo 16 Lunar Module Pilot & 10th man on the Moon). I was very familiar with powerful planes and rockets. I've learned to trust my life and business on great tools and competent people. Daniel and Angelina have put together an amazing system for small business that is technically advanced, yet doesn't take a rocket scientist to run it. I highly recommend their services - I didn't settle for anything less!"

Angelina Musik-Comp

ACKNOWLEDGEMENTS

I'm deeply appreciative to those who have invested time, emotion and resources for me to devour. For the encouragement, mental support and feedback, thank you. You have been generous with interest, influence and guidance over decades. For those that journeyed before me, I am indebted to your bravery and demonstration of faith, perseverance and grit.

To all of you, I wish awareness and grace.

MASTER Forrest

To Angelina Musik-Comp:

I am deeply grateful for your stamina, patience, and support as my best friend and business partner. We have traveled the curves together in good cheer. You are amazingly resilient and a joyful character to explore with. I am grateful for your gift of HEALING matching my expression of UNDERSTANDING!

To you, the reader, and participant:

*When I imagined this project, I had a hunch the cost would be years of commitment - but not **five** years. What you might not imagine is that it took me far less time and angst to create the Wellness by Choice syndication, and the Scotomaville syndication of nearly twenty five thousand websites. And now we have AI.*

*I believe “**The Greatest Expedition you will ever undertake is the journey to self-understanding, for the real voyage of discovery consists not in seeking new lands, but in seeing with new eyes.**”. Fortunately AI still lacks subjective experiences, emotions, and self-reflective awareness - and thus our superpower of story-telling may yet be an error correcting trim-tab for super intelligent reasoning engines.*

Cheers to YOUR Greatest Expedition!

Daniel Comp
